
2009 - 2010 Season

Posted by admin - 2009/08/11 20:42

The new season is nearly here and we are pleased to say both Prediction games are back this season.

Over the last 2 years 16 points has been the highest score any player has managed in any single week. This applies to both the Free Demo Game and the Pay to Play Game.

Will anyone break this total this year ?

Hope to see you all back on the site soon, and good luck to you all.

Week 3 saw the records tumble.

3 Players broke the standing record of 16 points in a single week for both the Prediction games.

Rodney Creamfresh with 19 points now leads the way in both the Pool Game and the Free Demo Game.

So who will be first to 20 points ?

Good Luck To you all.
